Why Receive RoRo Services from Sendiva Logistics Corporation

Should you have decide to use roll-on roll-off for your commercial vehicles or heavy machinery, let Sendiva Logistics facilitate the move. We specialize in moving what others can't, and that includes specialized cargo such as heavy machinery and more.

We have developed strong relationships in the global freight forwarding industry and have built an extensive global shipping network, which allows us to keep our shipping prices competitive. We know that as a business owner or logistics coordinator, you need to keep transportation costs down as much as possible, and we want to help you do that.

We also recognize that clear communication is important, especially when you are shipping high-value cargo, and we will keep you updated throughout the entire transport process. And while not every port services RoRo vessels, we will use our local expertise and work with you to find the most convenient port that can accommodate your shipment, so that delivery is straightforward and on time.

Want to learn more about our RoRo shipping or talk to us about your transportation project. Fill out our online form or give us a call: we always pick up the phone during business hours, so you can speak to a real person instead of having to worry about going through an automated system.

Haulage and Equipment

With an unparalleled range of equipment available, SENDIVA Logistics can provide a cost-effective and safe approach for the transport of heavy and oversized objects.

Bigger dimensions and heavier weights

In many industries, factories and plants are being constructed at ever-larger scales. The same trend is seen in civil construction projects, where infrastructures continue to increase in size. These changes require that ever larger and heavier objects – such as components, prefabricated modules and infrastructural elements like bridges – are fabricated, transported and installed. As a consequence, the requirements for transport services are changing, and service providers must accommodate bigger dimensions and heavier weights while adhering to increasingly higher safety standards. The right transport solutions meet these needs and can help optimize construction schedules and, in many cases, move deadlines forward.

OUR SERVICES

Warehousing and storage

SENDIVA's warehousing and distribution capacities include fullservice management backed by road, air and ocean freight forwarding products, advanced technology and strategic facilities. Our warehouse facilities are located for ease of reach and equipment access. With flexibility in facility size and type, we are able to select an existing site or set up what you need for optimal proximity.

We can manage end-to-end inventory planning and replenishment tailored to your requirements. Taking complete responsibility for your inventory, we find efficient and economical ways that eliminates unnecessary stock holding and subsequently decreases logistics cost. From the acquisition of spare parts and replacements to purchasing, ordering and quality control, we manage the materials and products necessary to keep your business running smoothly.

Project Cargo

If you have complicated or heavy equipment to transport, Sendiva Logistics will rise to meet the challenge. Our Project Cargo Department employees have years of experience handling project cargo but still maintain their youthful and eager attitudes. We thrive under pressure and have handled many high-value, transportation projects on tight deadlines.

Whether you need a turnkey services provider who will supervise your project from start to finish or a partner who will manage one challenging segment of your transportation project, Sendiva Logistics can help.

Our Project Cargo Specialties Include:

Out of Gauge:

Sendiva Logistics specializes in the shipping and handling of oversized or irregularly shaped cargo. Our team of experts and resource persons has the experience and tools to transport your most challenging cargo, even when it's too large to fit within a standard shipping container's length, width or height. Worrying about the safety and on-time delivery of your cargo will be the last thing on your mind with our out-of-gauge shipping solutions.

Heavy Lift:

When you have large items that can't be broken down into smaller, lighter-weight segments, Sendiva Logistics will come up with a transport solution. We even have experience moving products that are too heavy to transport on roads. Whether your cargo requires flatbed trucks, special volume cargo aircrafts, or even inland barges, we've got you covered.

Important Note: Please note that Sendiva Logistics Corporation (SLC) reserves or has the right to inspect your cargoes. Any prohibited items and misdeclaration of items are punishable by law.
